

# Jessenhofke

Newsletter  
August 2010

## Jessenhofke since 14th of August certified as brewery!

10 years after the First Beers were brewed in our vessels we are today certified as brewery. The vessels were used till now only for demo purposes during our arrangements 'brewer for a day'. This Beers were available for tasting sessions. The brewed beer is available in batches of +- 100 litres and is bottled in 75cl & magnums. The beers will only be available at the brewery. You can make an appointment, preferably by mail. The possibility exists for those beers to have a personalized label to use this beer as a relation gift for your company. At the moment 14 different beers are in stock. We have around 400 litres ready to taste or to ship. The alcohol varies between 3.5% Alc Vol & 9.9 % Alc Vol. The color varies from light blond till the very black rauchbier and between we have some fruitbeers. Some of the new beers that will be brewed in Lochristi are still available in the version brewed with us.

## Looking back to the saving action

Thanks to the saving action a lot of people had also the pleasure to taste a 75cl bottle of the beer they drank before in 33cl or on draught version. This action is ending shortly; the saving cards will be picked up. The new fans will/are already receiving the monthly newsletters. Thanks also to our pubs that cooperate with this. The action will be repeated in the future. Pubs that just started or are planning to start in the next weeks will have the necessary time to offer our beer together with the action.

## Agenda also available on our site
